

Press release 2012-10-29

Dinair acquires Svenska Textilfilter

The Swedish filter company Dinair AB has recently acquired Svenska Textilfilter AB. The combined firm will be able to offer its customers an even broader and better range of products and services. The two businesses are well acquainted after more than 20 years of cooperation.

“This is very exciting for us, as it provides the best opportunity for the future development of the company. We are looking forward to continue building on the already strong brands of Dinair and Svenska Textilfilter in unison”, says Svenska Textilfilter’s Mikael Ferm.

The acquisition of Svenska Textilfilter makes Dinair one of the most complete filter suppliers on the market. This is a natural step in the company’s planned strategic growth, where Dinair have also finalized investments of over 15 million SEK in the Svalöv factory during the fall.

“Svenska Textilfilter is a great company whose product range and expertise is a perfect complement to Dinair. Both companies are forerunners regarding environmental concerns and develop products providing complete solutions for efficient purification, low energy costs and low CO₂-emissions”, says Dinair’s CEO Fredrik Särnehed.

Dinair now has a pro-forma turnover exceeding 200 million SEK and approx. 200 employees. The headquarters are located in Vadstena. The private equity firm Alder has been a significant investor in Dinair since December 2011.

Dinair was founded in 1989 and is one of Europe’s largest manufacturers and suppliers of air filters. The company develops and produces filters for the protection of people, processes and the environment. Dinair’s unique system for filter selection optimises both the filtration process and working environment while reducing energy consumption and CO₂-emissions.

Alder invests in private companies within the environmental technology sector. Alder focuses on companies with strong growth potential and an already established business with a turnover between 5 and 70 million EUR. Alder has approx. 135 million EUR under management with investors such as AP7, Folksam and Kyrkans pensionskassa. For more information, visit: www.alder.se.
