Alder is strengthening the organisation

Alder strengthens its team by recruiting Knud Andersen as Regional Partner in Denmark, Åsa Mossberg as ESG manager and Zacharias Rosenlew, who joins the firm as a full-time Analyst after having served as an intern. These recruitments will further strengthen and support Alder's focus on the Nordic countries and sustainability investing.

“The Alder platform is its people. It consists of the core investing team, our regional partners, who reflect our commitment to be a pan-Nordic investor, our team of independent senior executives, who serve on the boards of our portfolio companies, and a significant group of advisors and service providers delivering key elements of non-investing expertise. Our recent hirings will contribute additional capabilities to the Alder platform at a time when we are expanding our investment activities by the launch of our second fund, Alder II. The new fund will be a continuation of the first one, launched in 2010, in terms of its scope and approach” says Thomas Nilsson, Chairman and Partner.

Knud Andersen has joined the team of Alder's Regional Partners, including Juho Lipsanen covering the Finnish market, Terje Rogne covering Norway and Bruno Wanske, who is active in the DACH area. Knud has extensive experience from board and executive management positions within Alder's sector focus. The most recent executive positions include CEO at AH-Industries and BB Electronics, COO at Vestas Wind Systems and NEG Micon. Knud will actively work with Alder's network in Denmark and support new investment processes.

Åsa Mossberg has joined Alder to support the fund and its portfolio companies in strategies and activities related to sustainability and ESG. Åsa has a broad business background with extensive experience from sustainability and finance, including private equity. Åsa has worked hands-on in both management and board level roles, most recently as founder of Beadifference AB, a sustainability advisory services company. Previously Åsa has, among other roles, worked as Sector Head in Equity Research at Kaupthing Capital Markets and as Head of Equity Research at UBS in Stockholm.
